

FM-48

XPOWER MISTING FAN

AFFORDABLE OUTDOOR COOLING SYSTEM

COOL AND REFRESH OUTDOOR EVENTS

XPOWER's FM-48 misting fan is a super portable cooling solution that creates a comfortable outdoor environment during hot spring and summer days. Setup is quick and easy—simply plug in and connect to standard garden hose to reduce temperature up to 30°. A high performance sealed motor generates up to 600 CFM. Four nozzles distribute a fine mist over a wide area that will cool down outdoor patios, pool areas, picnics, sporting events, and other outdoor activities. Set up misting fan in gardens and greenhouses to keep plants healthy in harsh weather. Use the multipurpose FM-48 without the misting feature as a year-round drying and ventilation utility fan.

Powerful Airflow

- Efficient 1.2A Max Draw
- Protected Sealed Induction Motor
- Quiet Performance w/ 3 Speed Settings
- Adjustable 210° Multi-Pivot Positions
- Wide 4 Nozzle Misting Pattern
- Corrosion-Proof Polypropylene Housing
- GFCI Fused Safety Plug
- Convenient Water Shut Off Valve
- Removable Easy Clean Nozzles

SPECIFICATIONS

Model No.	FM-48
Volts/Hertz	115V/ 60Hz
Motor	144 WATT
Power	1.2 A
Rated Airflow	600 CFM
Speeds	3 Speed
Cord Length	7 ft.
Operating Positions	210°
Unit Weight	10.1 lbs.
Unit Dimensions (LxWxH)	13.3" x 12.3" x 15.2"
Box Weight	11.7 lbs.
Box Dimensions (LxWxH)	13.6" x 12.7" x 14.6"
Housing	PP
Safety Certification	ETL / CETL
Dual Thermal Protection	Yes
Pallet Quantity	60

Features

210° Adjustable Positions

4 Fine Mist Nozzles

Wrap Around Cord Storage

Hose/Cord Clips

GFCI Safety Plug
