AIR PURIFICATION & DRYING SYSTEM

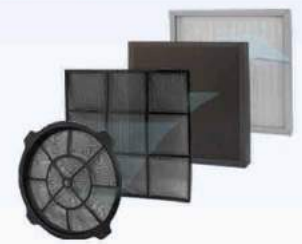

Introducing the XPOWER's revolutionary Grooming Salon Air Purification & Drying System (**APDS-I**) – cleans toxins, debris and contaminants, and also removes moisture from the air. The **APDS-I** system leaves the grooming area with cleaner and drier air that is much healthier to breathe and much more comfortable to work in. The system uses the combined power of XPOWER's Air Scrubber & Dehumidifier connected with our specially designed adapter and ducting hose. The **APDS-I** is designed specifically for heavily contaminated, enclosed environments such as pet grooming salons, making the pet grooming job much easier and healthier.
